DATASHEET

XS4 LOCKER by SALTO

The XS4 Locker Lock BLE provides high level security to a wide range of lockers, cupboards, cabinets, boxes, etc. by integrating it into the SALTO wirefree electronic access solution. Its new electronics permits to integrate Bluettoth technology allowing the usage of JustIN Mobile technology and SALTO BLUEnet wireless online technology through the same hardware. it is now possible to customize the level of functionality you need just by programming the deviceas desired.

The battery pack, electronic components and locking mechanism are all located on the inside of the door, safe from potential vandalism or sabotage.
